ZİYA DENİZ

Computer Engineer

📞 05352161517   @ ziya.deniz@agu.edu.tr   🔗 ziyadnz   ⊙ ziyadnz   📍 Kayseri, TURKEY

EXPERIENCE

Summer Internship
STM

📅 July 05 – August 2021   📍 Ankara, Turkey

- Production of monitoring pages and from mongoDB and monitoring remote computers stuation.
- Cyber security software development with:
  JAVA & SpringBoot &
  MongoDB & Vaadin
- Project Name: CyDecSys

Content Editor
Hackathon Turkey

📅 August 2021 – Ongoing   📍 Volunteer

- To support and help to carry forward teens ideas, I am adding current Hackathons & GameJam & Bootcamp etc.

Flutter Developper
CM Information Technologies

📅 July 2020 – Sept. 2020   📍 Volunteer internship

- Production of mobile applications.
- For application used Firebase:
  MySQL & Firebase &
  Dart & Web-View

CERTIFICATES & SKILLS

Certificates
Coursera

- CISCO Networking Academy Introduction to Cybersecurity (11 Nov 2021)
- NYU (Introduction to Cyber Attacks) (Mar 27, 2021)
- IBM Introduction to Cybersecurity Tools & Cyber Attacks
- Google (Operating Systems and You: Becoming a Power User) (Jul 16, 2020)
- UC SanDiego (Teaching Impacts of Technology: Data Collection, Use, and Privacy) (Jul 18 2020)
- UPENN (Cryptocurrency and Blockchain: An Introduction to Digital Currencies) (Nov 10, 2020)
- Google (Technical Support Fundamentals) (Jun 15, 2020))
- İstanbul Üniversitesi (IoT Güvenliği ve Veri Gizliliği Katılımcı Sertifikası) (Dec 25, 2020)

`Linux (Kali)` `HackTheBox` `TryHackMe`

`Java` `Flutter` `Python` `Spring-Boot` `MySQL (PHP)`
`Firebase (Flutter)` `MongoDB (Java JPA)`

EDUCATION

Computer Engineering (%100 English)
Abdullah Gül University

📅 Sept 2017 – June 2023

PROJECTS & COMPETITIONS

STM CTF'21
Cybersecurity

📅 22-23 October 2021

- As a team we took 40th place.

GSB Genç Ideathon
Ideathon

📅 10-15 May 2020

- As a team we took 3rd place.

Orteks Cafe
iOS & Android (Flutter)

📍 AGU Mobile Programming Lecture

- Applied Android's advanced components such as notifications, services, broadcast receivers, content providers, API, Database, Firebase etc. with a 3 people group.
- We use Github to manage version changes.

DApp Contribute Webpage
Ethereum & Solidity & React

📍 AGU Blockchain and Cryptocurrencies Lecture

- A webpage to vote in the trusted network and privately. This led the investors to vote to add new units into a company. It is created with in a group with two people.

DApp To-Do
Ethereum with ganache & Flutter & Solidity

- It is created on WhatsApp crisis. It is a mobile app which created with flutter, solidity and ganache.

VOLUNTEERING EXPERIENCES

🏆 **IEEE AGU Student Branch (Board Member)**
As a board member played active roles on Arduino teaching, conferences and meetings.

🎧 **ERU Speaking Club (Teacher)**
Teaching basics of English and preparing exercises.
